SUMMARY

Web Developer at Appneer Technologies since August 2023, specializing in web design, frontend development, marketing ads, video editing, and packaging design. Designed and developed multiple websites, demonstrating expertise in UI/UX and frontend technologies. Skilled in HTML, CSS, JavaScript, Bootstrap, React.js, GitHub, CorelDRAW, Figma, and Canva. Holds web development certifications from Microsoft and Great Learning.

WORK EXPERIENCE

Web Developer, Appneer Technologies   **Aug 2023 - Present**

- Designed and developed four fully functional websites from scratch, ensuring responsiveness and seamless user experience.
- Developed **three custom websites** , implementing clean UI/UX with HTML, CSS, JavaScript, and Bootstrap.
- Modified and improved **one existing website** , optimizing performance and enhancing design.
- Created **interactive UI/UX designs** in Figma and translated them into responsive websites.
- Ensured **cross-browser compatibility and mobile responsiveness** for all developed projects.
- Designed **branding and packaging materials** using CorelDRAW and Canva for company products like Sedya and Instamills.
- Produced **marketing commercial ads and product videos** to boost digital outreach and brand visibility.
- Worked closely with the marketing team to align website content and design with business objectives.
- Managed **version control and code collaboration** using GitHub.

- **React.js** – Builds reusable UI components.
- **UI/UX** – Designs user-friendly interfaces.
- **GitHub** – Manages version control.
- **CorelDRAW** – Designs branding materials.
- **Canva** – Creates digital graphics.

PROJECTS

WholeCart – A Business Portfolio Website Explaining Company Workflow:
WholeCart is an online platform for premium millets and grains. I designed it in **Figma** and developed it using **HTML, CSS, JavaScript, React.js and Bootstrap** for a responsive and smooth user experience. The site is optimized for speed, navigation, and cross-browser compatibility.

Sedya- A Website Detailing Company Operations and Work Process:
Sedya is an online platform offering premium-quality millets and grains. I designed it in **Figma** and developed it using **HTML, CSS, JavaScript, React.js and Bootstrap** for a seamless and responsive user experience. The website is optimized for speed, smooth navigation, and cross-browser compatibility.

Instamills-A Corporate Website Highlighting Company Overview and Services:
Instamills is an online platform designed for fresh, on-demand flour milling. I created the design in **Figma** and developed the website using **HTML, CSS, JavaScript, React.js and Bootstrap** to ensure a user-friendly and responsive experience.

Wholemills Enterprises Pvt Ltd - A Company Profile Website:
Wholemills is an online platform for high-quality millets, grains, and freshly milled flours. I designed it in **Figma** and developed it using **HTML, CSS, JavaScript, React.js and Bootstrap** for a seamless and responsive user experience. The site is optimized for speed, smooth navigation, and cross-browser compatibility.

Sedya - 450g Packaging Design – Product Branding & Labeling:
Designed a **450g product package** for Sedya using **Canva and CorelDRAW**, ensuring a premium and visually appealing look that aligns with the brand's identity. Focused on clarity, branding, and product information to enhance shelf appeal.

Instamills - 5kg Packaging Design – Bulk Product Packaging & Branding:
Designed a **5kg packaging** for Instamills using **Canva and CorelDRAW**, maintaining a clean and professional design that reflects the brand's commitment to high-quality flours. Ensured the design was both informative and market-friendly.
